Mr. Howard Brown
President
Brown & Cohen
321 Brooke Avenue
Toronto, Ontario
M5M 2L4

Dear Ms. Sacco and Mr. Brown, *Dana and Howard*

Thank you very much for meeting with me on March 8th to discuss the efforts of the Ontario Opticians Association (OOA) to have the Ministry of Health adopt the recommendations of the Health Professions Regulatory Advisory Council concerning the practice of refraction..

I believe we need to put the interests of Ontarians first by allowing the public to have more choice.

I applaud the positive contributions the OOA has made to Ontario's health care system and I look forward to being kept informed of your plans for developing a strategy to bring a greater awareness of the issue of refraction to the Minister of Health.

Again, thank you for meeting with me.

Sincerely,

Elizabeth
